

DISPATCH NO. MGKW-

SECRET

CLASSIFICATION

DATE 11 October 1951

Attn

FROM : Chief, FDM

SUBJECT: GENERAL-

SPECIFIC- PASTIME W/T Operators

REF: MGBA-9868

1. We have searched our archives for the reports described in reference, thus far without success. IR has suggested that you might consult CIC, Stuttgart, as well as the German element of AFSA.

2. If these reports are finally located, either here or in Germany, any W/T operators whose names appear therein will be of value only during an emergency situation, as you are undoubtedly aware. Since we must assume that their identities as radio operators are also known to the Soviets, they cannot be counted on for any long-term PASTIME operations. We do not wish, however, to discourage the recruitment of emergency operators, who will be of undoubted value during the confused period immediately following Soviet occupation, but only to emphasize their temporary nature in comparison to long-term prospects like CATTY 4.

NOT SENT.
